Fruit Picking Tips

STICK TO OUR LIST
Not all orchards offer for pick-your-own experiences, check our listings below before you go.

RIPE IS RIGHT
Cherries will only ripen on the tree, so leave unripe ones behind.

KEEP THEM COOL
Once picked, keep cherries covered and put them in the refrigerator as soon as you can.

RESPECT THE TREE
Don't snap the branches. Not only does this upset our farmers, but it also damages the tree and future year's crop.
